

Activities Information

Please read these guidelines carefully, to ensure your Scouts and Guides can enjoy the activities to their fullest and have all the correct equipment to take part. Incorrect clothing or equipment may mean an activity has to be missed for safety reasons.

General notes and information

All Zones have been colour coded, they will be the same colour on the timetable, flyer, maps, signposts, banners and activity signs, even the staff will have coloured badges, to make it easy for everyone to find where they should be.

There are no tickets for starting activities, participants should be encouraged to spread across all activities, returning to those with larger queues later in the session.

Each Subcamp will have the opportunity to visit each zone for two full sessions during the Jamboree.

Some of our activities are for 14+ only, these will be clearly sign posted. We do this to allow extra experience for the older participants, and some are for safety reasons.

Sturdy shoes and long hair tied back are common requirements across most activities, so please make sure participants have the correct shoes and a good supply of hair ties.

Remind your young people to wear a hat and carry a named water bottle with them, it's a long walk from the activity areas to the subcamps.

If you need any specialist help with an activity, please speak to a member of the activity team, we will do our best to assist you.

Activity Timings...

Morning session: 9:00am to 12:30pm

Afternoon session: 1:30pm to 5:00pm

Fiesta Friday

This year we have introduced Fiesta Friday! where all participants have access to all zones at the same time throughout the normal session times. They can go back and try something they have missed or have another go at their favourite activity.

Young people should be encouraged to spread themselves around all zones to reduce queueing time.

Meet the team

On Saturday 9 August, the Activity Team will be available in the Activities Office between 14:00 and 16:00 to answer any questions you have about activities.

The Activity Subcamp Liaison Team will also attend each Subcamp meeting to pass on any information and to answer any questions throughout the week.

Activities Information continued
